

**Role title: QA Expert****Location: Tel Aviv, Israel**

Versatile (Formerly known as Versatile Natures) is a Construction Tech Company that has pioneered a new, non-intrusive way to capture Jobsite performance data. Our vision is to connect all fragmented pieces of the construction process to a single source of productivity and precision. We transform construction professionals into superheroes and construction into a truly controllable manufacturing process.

We are seeking an enthusiastic, collaborative, and highly motivated QA Expert to join our company. We are looking for someone who thrives in a fast-paced environment and welcomes new challenges every day. You will report directly to the Squad Lead and work closely with a Product Manager while managing our core product quality assurance from within the squad, in our Tel Aviv headquarters (5 minutes from HaShalom train station).

**What you will be doing:**

- Driving and managing our products' quality
- Fullstack QA: you'll execute and write testing plans from the data level up to customer behavior, testing new features, regression and API
- Manage, analyze, investigate (Tier-2, Tier-3) and track defects
- Closely collaborate with Product Managers, Developers and support Engineers
- Be a significant part of a squad and work according to agile methodology

**Requirements:**

- 3+ Years experience with QA methodology, testing processes and documentation standards
- Experience (hands-on) with testing web applications and API services and relational DB SQL - a MUST
- Technical orientation and demonstrated familiarity with web technologies such as HTTP, HTML, AJAX, CSS.
- Ability to solve complex problems and provide a detailed technical analysis
- Able to work independently, self-motivated, detail-oriented and organized
- Familiar with common AWS web services
- Excellent English - spoken and written
- ISTQB / ITCB certification or BSc degree in computer science - an advantage
